OBJECTIVE

Enthusiastic and adaptable professional seeking opportunities as a UI Designer, Web Developer, or Python Developer. Proficient in UI design, responsive web development, Python, AI tools, and prompt engineering. Eager to contribute to innovative projects, learn new technologies, and grow within a dynamic organization.

WORK EXPERIENCE

Web developer intern

May 2022 – jun 2022

coderhub expert

I learn the website development tools like HTML, CSS and Javascript, here by using the tools I develop a game application like TIC-TAC-TOE game and candy crush game and simple chat bot.

These are the applications which I develop using the tools. This makes me have a brief idea of how to develop a website and game applications.

Project intern

mar 2024 – jun 2024

College project

- OBJECT DETECTION
- This is the project which I design in the end of the semester of my college. Here the project development is done by usage of python language and YOLO algorithm.
- The main reason of developing this project is to detect the objects in a bunch of data. It helps in healthcare, traffic signals, schools and CCTV.

UI designer

Oct 2025 to present

self designing using figma and creation

- Developed the various app designs to help in various sectors like health care, tourist, e-commerce etc.,
- The major role of UI designing is self thinking and creativity.
- The major applications that I was developed is tourist app, health care suggestion app, e-commerce clothing design.
- They help in making the interact with various sector through app communication.
